

CCTV Partnership Program Application Form 2026-2027

Form Preview

CCTV Partnership Program 2025-26

About the Program

Closed circuit television (CCTV) is a useful tool in the detection and investigation of community safety and crime challenges. The Town of Victoria Park developed this partnership program with the WA Police Force to increase the number of CCTV and security camera systems in strategic locations.

The Town is providing rebates for **half the cost** of a CCTV project, **up to \$750**. To be eligible for a rebate, the system must overlook the public realm. Residents, businesses, and community groups are all eligible to apply.

Terms and Conditions

1. One application per property will be considered each Financial Year.
2. The system must meet the minimum technical requirements as follows: 6-Megapixel or equivalent and night-time capable.
3. There must be adequate lighting such as sensor lights or in-built night vision capabilities to capture adequate footage.
4. CCTV must be installed within the Town of Victoria Park and remain within the Town.
5. The system must be fully paid for, and all forms must be completed in full before the rebate is issued.
6. The Town will rebate half the cost of the CCTV system, up to \$750. Allocating funding to a project remains at the Town's discretion. The Town does not guarantee rebates to all applicants if the allocated budget is fully expended.
7. The applicant must provide the Town with photos/video for all cameras funded as part of the program to confirm camera field of view covers the public realm and camera field of view for neighbouring properties. All camera installations need to comply with the [Surveillance Devices Act \(1998\) WA](#).
8. Any alleged breach of the Surveillance Devices Act 1998 (WA) is a matter for the WA Police as the agency responsible for investigating and enforcing offences under the Act. The Town does not administer or enforce the Act and cannot provide a determination as to whether a particular surveillance device installation complies with its requirements. Applicants and property owners remain responsible for ensuring their surveillance devices are installed and operated lawfully.
9. The system must be installed, and all forms must be completed, within 90 days of Town approval.
10. The applicant must agree to provide footage to the WA Police Force upon request and register their system with [Cam-Map WA](#). Failure to do so will result in the Town retrieving any payments it has made to the applicant.
11. If the applicant is not the property owner, there must be permission from the property owner or agent authorised to act on their behalf before the system is purchased and installed.
12. Devices purchased more than 12 months prior to submitting an application are ineligible for the program.
13. The Town will send a follow-up survey in the following financial year, seeking feedback regarding applicant feelings of safety, the effectiveness of their systems, and general feedback.

Form Preview

- 14 Applicants are eligible for newly installed systems or upgrades to an existing system to meet the minimum technical requirements.
- 15 Applicants must inform their neighbours (whose property or activities are visible in the camera's field of view) about the system because they may either benefit or object to the field of view. Applicants will need to confirm neighbours have been consulted and are supportive of the field of view as part of the post installation requirements.
- 16 At least one of the cameras installed must overlook the public realm such as the road, footpaths, front verge, parks, or laneways.
- 17 Rear properties or buildings with limited view of the public realm may not be eligible. The Town will assess on a case-by-case basis.
- 18 Systems that have received funding from this program in previous Financial Years are not eligible for funding.
- 19 The applicant must not have any current outstanding debt with the Town.
- 20 If the applicant opts for a payment plan, seek advice from the Town.
- 21 Concession card holders will not receive a greater rebate amount. Seniors can visit seniorswa.gov.au for additional State Government rebates on security devices. Receiving a State Government rebate for this program does not make the applicant ineligible for the Town's CCTV Partnership Program rebate.
- 22 The applicant is ineligible if they are an elected member, staff of the Town or an immediate family member. State and Federal Government properties are not eligible for funding.
- 23 The Town reserves the right to cancel rebate arrangements at any time if the above conditions have not been satisfactorily met. The Town is not liable for any cost incurred by the applicant and may require repayment of any rebate fund provided if the conditions of the rebate program are not met.

Application Instructions

Step 1 - Read the T&Cs

Read the full Terms & Conditions above and check that you are eligible to apply.

Step 2 - Complete Your Application

Found the right CCTV system? Follow the steps below to complete your application and have your eligibility for the rebate assessed.

Compare your options and check the minimum requirements

Seek quotes and compare prices for your CCTV system. Please ensure that minimum technical requirements are met and at least one of the cameras to be installed has a view of the public realm and/or common areas (e.g. verge, road). Ensure the field of view of neighbour properties is compliant with the [Surveillance Devices Act 1998 \(WA\)](#).

To be eligible for a rebate, your CCTV system must:

- Have a minimum resolution of **6 megapixels**
- Be capable of recording clear images at night
- Capture part of the **public area** (such as a street, footpath, or laneway)

CCTV Partnership Program Application Form 2026-2027

Form Preview

Both wireless and hardwired security cameras are eligible for the program.

Complete the application form

Once you have decided upon your system, please submit an application form.

Once you have completed the application form, a Town Officer will be in contact with you to let you know if you are eligible for the program. If you are eligible for the program, the Town Officer will then advise you to proceed with installation and payment. Installation should not take place prior to approval by the Town.

Wait for eligibility confirmation A Town officer will review your application and contact you to advise whether you are eligible for the program.

Step 3 - Install and Pay

Once your application has been approved by the Town, you may proceed with organising the installation of your system. The cameras must be installed as agreed by the Town officer.

The applicant is responsible for engaging and procuring the goods and services. The applicant is also responsible for fully paying the total invoiced amount to the registered business. The Town is not liable, nor will it provide any payment to the registered business as engaged by the applicant.

Step 4 - After Installation

Once your system is installed and paid for, you will need to complete the After Installation Form.

This form will require you to:

1. Upload a copy of your paid invoice showing full payment for the system.
2. Register your system with WA Police Cam-Map WA and upload the confirmation email as proof of registration. You can register your system by following the link below:
[Register for Cam-Map WA | Western Australian Government](#)
3. Submit a dated image of footage from your system.
4. Provide feedback on the program.

Step 5 - Review by the Town

The Town Officer will review your application in full to ensure the Town has all necessary information and that all the Terms and Conditions have been met.

The Town Officer will advise the outcome of the application in writing. In the event the Town requires more information, the Officer will contact the applicant.

Step 6 - Receive Your Rebate

Your rebate will be transferred electronically to the account nominated on the application form.
